

## **Security**

As an organizer we do everything we can to make Gothia Cup a safe event. We cooperate with the police and other authorities, but we also need help from our participating teams.

### **Meeting point**

When attending the opening ceremony or visiting Gothia Heden Center, Liseberg or other crowded places we recommend that you together with your players decide on a meeting point in case you come apart. Always walk together as a group or at least two and two.

### **Pitches**

Never leave your bags and belongings unattended at the pitches.

Gothia Cup has officials and match delegates at the playing fields, who are there to observe and report any disturbances.

### **Injuries during matches**

At the larger playing areas, you'll find Gothia Cup First Aid staff, you recognize them with their red or yellow vests. At the playing areas where we do not have any First Aid staff our ambulatory nurses and physiotherapist can help with injuries.

### **Gothia Opening Ceremony**

We urge everyone to be at Ullevi Stadium well in advance to make sure everyone finds their seats before the show begins. The gates will be open from 18.30 and the show begins at 20.00. At the entrance all visitors will be searched, to make the procedure faster we recommend that you leave bags at your accommodation, if possible.

### **Good to know**

Before traveling, take a photocopy of everyone's passport and your travel documents and store them in a different place than the originals.

Keep your valuables in closed bags and pockets and be aware in crowds, to protect yourself from pickpockets. Note that the Gothia Card is not replaced in case of loss.

### **Insurance**

Participation at Gothia Cup is at your own risk. The team leader is responsible for all players in his/her team. Gothia Cup has no collective insurances that covers injuries, diseases, theft, or damage. Read more in the tournament [regulations §19](#).

*We have full respect of the wishes of specific answers about our security, but we cannot go into detail about what safety preparations we do. We hope this will be understood.*
